## PASTOR OBSERVES 5TH ANNIVERSARY IN LOCAL CHURCH

Flourishing Condition of First  
Presbyterian Under Dr.  
Burnett's Ministry.

Dr. J. A. Burnett observed his fifth anniversary as pastor of the First Presbyterian church yesterday. In the morning he preached a special sermon appropriate to the occasion. While no special reference was made to the work accomplished during these years, the church calendar contained a brief summary of the period covered by the present pastorate.

The church debt has been cleared, a pipe organ installed and the benevolences increased 100 per cent. All departments are in a most flourishing condition and the same earnestness characterizes the membership as when Dr. Burnett began his ministry here.

DR. J. A. BURNETT

Other statistics noted are as follows: Members received, 140; sermons preached, 493; addresses delivered, 123; funerals conducted, 39; calls, 1,926.

The subject of Dr. Burnett's sermon was "The Divine Leadership," from the text, "Behold, he is that doth go before thee; he will be with thee, he will not fail thee, neither forsake thee; fear not, neither be dismayed."

In part the speaker said: "In recalling today the years of service in this church, and in view of the approaching Thanksgiving season, no thought can more profitably engage our attention than that which the text suggests, God's leadership and blessing of his people."

"It was a crisis in the history of Israel, Moses, the man of God, who had led them for 40 years, had finished his work. To the very last moment his life was crowded with activities; he died in the wilderness. He can not leave his sacred charge without some final words of counsel to his successor, Joshua, and his message of encouragement and assurance is epitomized in the text: From this experience and its essential truth we may take some lessons for the present hour."

"We are ever in need of the divine presence. To nation's future depended upon its successfully meeting the present crisis. It is thus in life, a moment determines a destiny. We come to places of decision when the accumulated blessings of the years shall be ours, or ignominious failure shall work our lives because we refuse to accept the challenge of God. A Universal Principle."

"The channel of our lives is marked by him who gives it; why shall we dig a new one. This principle operates in every realm of life! It has its application to the individual, to society and to the church. Never has there been such a need of the conscious sense of the divine presence and leadership."

"We are not disposed to dwell upon our achievements as a church, nor to point out our failures. This is the time for a new appraisal and we should catch a larger vision for our service in the days to come."

"We need the environment of God, a sensible appreciation of his unfailing provision; faith in his plan for us and courage to press forward to the fullest realization of that plan."

"How specific this transcendent leader of Israel was in his confidence—leadership, presence, help, constancy—these are the words he would pass on to his successor. His own experience had taught their meaning and his faith accepts their continuance."

"He could give over his work to another without a fear; the people were safe in the keeping of the Almighty, and in their fidelity the meaning of the divine purpose would be disclosed."

"If we had not proved God to be true to his word, this is the time to move out on his promises and the testing will bring us larger and more abundant blessings."
